Objective

Full Stack & App Developer skilled in **MERN** stack, **React Native**, and **Python**, with experience building real-time web and mobile apps.Strong in problem-solving, **DSA**, and team collaboration, focused on clean and scalable solutions.Excited to learn fast, build impactful products, and grow in dynamic tech environments.

Education

Rajiv Gandhi University of Knowledge Technologies (IIIT), Srikakulam	**May 2026**
B.Tech in Computer Science Engineering	*9.3/10*
Rajiv Gandhi University of Knowledge Technologies (IIIT), Srikakulam	**April 2022**
Intermediate, MPC - Board of Intermediate Education, A.P	*9.5/10*
Z P High School, Kumili, Vizianagaram	**April 2020**
10th Standard, Board of Secondary Education, A.P	*10/10*

Experience

Fine Labs — Full Stack Developer Intern - Remote   **March 2025 – August 2025**
- Redesigned the **Fine Labs website and mobile app**, improving UI/UX, speed, and overall product quality.
- Modernized the architecture and optimized performance for a smoother cross-platform experience.
- Developed **Bytes**, a content platform inspired by Inshorts with video news and rich, category-based feeds.
- Added real-time updates and enhanced media features to significantly boost user engagement.

Technical Skills

Programming Languages: Python, C, C++,Java (learning actively), SQL.
Frameworks: React.js (proficient), React Native, Node.js, Express.js, javascript, Tailwind CSS, Bootstrap.
Databases & Tools: MongoDB, MySQL, Git, GitHub, Firebase, Supabase, GAuth.
Concepts: Data Structures and Algorithms, Full Stack Development, APP Development, Prompt Eng, DBMS.

Projects

Qwik – Find Services in Seconds — Links: *LiveUrl*, *SourceCode*   **December 2025**
- Built QuickConnect, a real-time, location-based platform to instantly find and book nearby service providers.
- Developed the **User** and **Helper Dashboard** with bookings, pricing, and verification flows.
- Added Google Sign-In, role-based access, instant call/message options, and real-time updates.
- **Tech Used:** React, Next.js, Node.js, Express, Supabase, Google Auth.

Magic Touch App — Links: *SourceCode*, *LiveUrl*   **May 2025**
- Developed a beauty and boutique services platform connecting service providers with customers, featuring bookings, smart pricing, and automated confirmations.
- Integrated WhatsApp API notifications and push alerts for booking confirmations and updates.
- Tech Stack: React Native (Expo), Firebase, Tailwind CSS, React Navigation.

NxtWatch — Links: *SourceCode*, *LiveUrl*   **December 2024**
- Built a video streaming platform with search, theme toggle, video playback, and secure authentication using JWT.
- Implemented protected routes and REST API integration for dynamic content rendering.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS.

Certifications & Achievements

- Solved 200+ CPP DSA challenges on NxtWave CCBP platform demonstrating strong problem-solving skills.
- Deep Learning Certificate from NPTEL with Elite + Silver grade (Score: 84%).
- Large Language Models (LLMs) Certificate from NPTEL with Elite + Silver grade(Score: 76%).
- GenAI Buildathon Certificate - OpenAI & NxtWave (Prompt Engineering and AI tools).
- Full Stack Development Certification - NxtWave CCBP 4.0 Technologies.
